

VIRM: Entry certification (new light vehicles)

1 April 2022 amendment

March 2022

2-1 Standards compliance

Overview

Technical information

Tables and images

Fuel consumption, test cycle, CO2 and battery efficiency information

For a vehicle where fuel consumption, CO2 and battery information is required for entry certification by the Land Transport Rule: Vehicle Efficiency and Emissions Data 2022, this data must be entered using MIAMI.

The original homologation values for the documented test cycle should be supplied. Conversions and mapping to supply 'normalised' values as required by the Rule will be done by MIAMI. This is mandatory where the fuel type is petrol, diesel, LPG, CNG, petrol hybrid or diesel hybrid and the vehicle class is MA, MB, MC, MD1, MD2 and NA and the vehicle has a gross vehicle mass of not more than 3,500kg.

Class MA (Passenger car) standards requirements

Vehicle has to meet standard if manufactured on or after ...*	What sort of standard?	Under what legislation?
* or entry certified where stated		
Is entry certified on or after 1 April 2022	Fuel consumption	Land Transport Rule: Vehicle Efficiency and Emissions Data 2022

Class MB (Forward control passenger vehicle) standards requirements

Vehicle has to meet standard if manufactured on or after ...	What sort of standard?	Under what legislation?
* or entry certified where stated		
Is entry certified on or after 1 April 2022	Fuel consumption	Land Transport Rule: Vehicle Efficiency and Emissions Data 2022

Class MC (Off-road passenger vehicle) standards requirements

Vehicle has to meet standard if manufactured on or after ...	What sort of standard?	Under what legislation?
* or entry certified where stated		
Is entry certified on or after 1 April 2022	Fuel consumption	Land Transport Rule: Vehicle Efficiency and Emissions Data 2022

Class MD 1 (Light omnibus up to and including 12 seats) standards requirements

Vehicle has to meet standard if manufactured on or after ...	What sort of standard?	Under what legislation?
* or entry certified where stated		
Is entry certified on or after 1 April 2022	Fuel consumption	Land Transport Rule: Vehicle Efficiency and Emissions Data 2022

Class NA (Light goods vehicle) standards requirements

Vehicle has to meet standard if manufactured on or after ...	What sort of standard?	Under what legislation?
* or entry certified where stated		
Is entry certified on or after 1 April 2022	Fuel consumption	Land Transport Rule: Vehicle Efficiency and Emissions Data 2022
